I enjoy the game immensely. It's simple mechanics are fun, and the collection aspect of getting costumes that are both fun to look at and help boost your stats is great. However, I cannot recommend this game due to how badly it plays.

The game lags on my computer, which can play high end AAA titles with no hiccups. I've tried to troubleshoot the issue, but I can't figure out why this simple game is having so many issues. It freezes during load screens and the frame rate is atrocious. Really sad, considering how fun it is.. Cute little twist on a dungeon crawler 10/10. I didnt expect much when i saw this game. I mostly bought it due to the "kongregate" title being on it and i adore their games. But holy heck this game is good fun :D, i seriously hope we see more content added.. I had lots of candy, now i have no tooth
Sweet game!

<https://www.youtube.com/watch?v=437i2LEpPps>. Crawl through maze-like dungeons and figure out the best path to defeat enemies and escape through the portal. Collect candies to buy better gear or increase your stats. Plenty of loot to grab and if you get the same thing twice it increases the power of that item for each duplicate found. Then there are other game modes like endless wave or a timed dungeon rush. A surprising amount of fun for the price.. THSI IS SO FUN TO PLAY

Glad I got this, would rather pay for the game than play the free phone version. Although there is a problem with it and that's that it keeps lagging out every time I click on something and when I load into the game, like the game freezes for a few seconds, not sure if it's just me or if it's the game. Aside from that it's pretty fun if you like collecting costumes and slashing loads of enemies. A must have in the Halloween season.

[Update] Game works fine now, bout time they fixed it.. this survival game uses upgradable loot to progress further into the game.

cool puzzles and neat secrets in it too.

if you're into strategy games, you might like Slashy Hero.. So to Start I own PC and Ipad version I will be comparing the Two aside one another.

Price:

Pc: Costs 7\$ when not on sale (i got on sale dont let price foul you highly replayable) +1

Ipad: Its free +1

Items:

Pc: Adds roughly 100+ or more costumes from {Doom}, Skyrim and etc (Good stats) +1

Ipad: Only 107 Costumes pieces i think +0

Gamplay: +1 (Lvls same in both)

Pc: Same lvls

Ipad: Same lvls

Controls: (Both controls are equally as easy but slighty diffrant)

Pc: Use mouse to slice, and keyboard WASD to move +1

Ipad: Easy to do just touch and slice or tap to move +1

Candy: (How to obtain I mean)

Pc: Play Lvls +1

Ipad: Watch Videos, Play lvls, and use real money for it +.5 (For the money part i took minus)

So both are a great game overall the score close by my standards:

Pc: 5V5

Ipad: 4.5V5

So I suggest this game and there other game Cat Quest which is how i learned of this game due to a quest in it. "The forgotten hero"

Note:[Doom] means its my favorite costume gives +1 everything per level :D. THSI IS SO FUN TO PLAY
